The 4th edition of the  
**Interdisciplinarity  
in Engineering  
International Conference**

**2009**

<http://inter-eng.upm.ro>

**November 12-13 2009  
„Petru Maior” University of  
Târgu Mureş, Romania**

The INTER-ENG 2009 International  
Conference will take place on the  
50th anniversary of „Petru Maior”  
University of Târgu Mureş!

---

**Organized by**

**„Petru Maior” University of Târgu  
Mureş**

Department of Electrical Engineering of the  
Faculty of Engineering

Department of Technological and Managerial  
Engineering of the Faculty of Engineering

**The General Association of the Engineers in  
Romania AGIR – Mureş Branch**

**Location**

INTER-ENG 2009 will be held in the city of  
Târgu Mureş which has not only a rich  
cultural heritage but is also an important  
intellectual center hosting museums,  
technical, medical and drama universities.

Founded in 1960 by the Ministry of Education  
and Culture and functioning without  
interruption under different names and  
higher education structures, the “Petru  
Maior” University numbers 50 years of  
existence.

The presence of this institution in Târgu  
Mureş has provided the old Transylvanian  
town that particular nucleus of spiritual,  
scientific and cultural life that marks the  
cultural level of an entire urban community  
where cultural, ethnical and confessional  
interrelationships are extremely complex and  
with high spiritual potential.

**Conference Scope**

The scope of the conference is to provide a  
professional and scientific forum for  
engineers and research scientists from  
universities, research centers and industries  
and the opportunity to present their work  
describing the contributions and recent  
developments as well as current practices in  
engineering. The INTER-ENG conference will  
also offer the opportunity for companies in  
engineering to present their products and  
services.

We hope the conference will provide an  
excellent opportunity to become better  
informed about the developments in the  
main fields of engineering and to be an  
enjoyable experience for all participants.
